AMBULATORY
BLOOD PRESSURE MONITOR

COMPREHENSIVE
BLOOD PRESSURE
MONITORING

**BRINGING PATIENT
COMFORT HOME**

The Baxter ABPM 7100 is a 24-hour ambulatory blood pressure monitor that is designed to avoid the effects of white coat hypertension, take accurate sleep readings, and help you tailor drug therapy regimes to your individual patient's needs.

PROVIDING COMPREHENSIVE BLOOD PRESSURE ANALYSIS TO HELP MAKE BETTER THERAPEUTIC DECISIONS

The Baxter ABPM 7100 utilizes powerful software to help you to analyze blood pressure readings effectively in order to diagnose potential patient complications. With all this, the ABPM 7100 can help you enhance blood pressure management for your patients and make monitoring efficient for your practice.

FEATURES AND BENEFITS

- Unlimited protocols allow you to program measurement periods and inflation frequencies to meet a variety of study needs
- Uses Auto Feedback Logic during cuff inflation, which reduces over-inflation and provides excellent patient comfort and acceptance
- Lightweight, compact and quiet designed for improved patient compliance
- Includes Hypertension Management Software (HMS)

THE BAXTER ABPM 7100 CONNECTS WITH HYPERTENSION MANAGEMENT SOFTWARE TO ENABLE YOU TO CREATE, PRINT AND CUSTOMIZE DETAILED REPORTS:

1 Statistical summaries for systolic, pulse, mean arterial pressure and heart rate including minimums, maximums, average and standard deviations

2 Graphical representations of BP profile including pie charts, histograms and correlation charts for 24-hour period as well as a separate breakdown for day and night readings

3 Editable report for detailed analysis

4 Trending tool for long-term evaluation and help with drug management

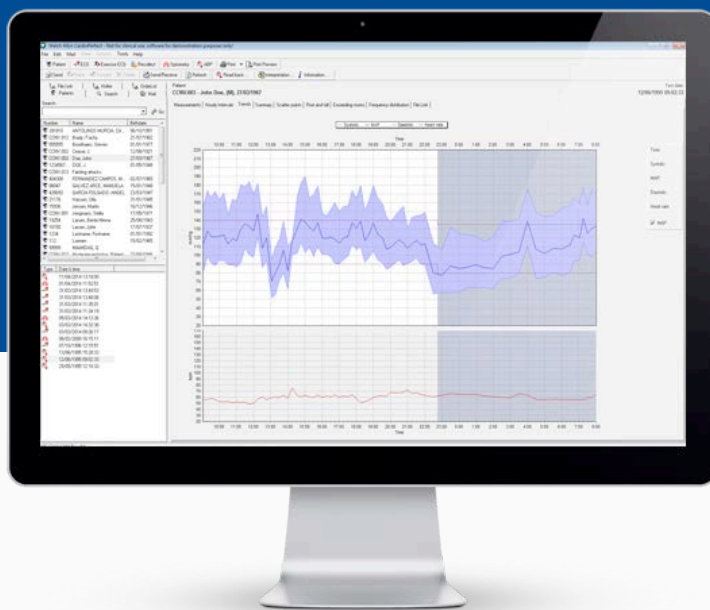

5 Summary view

HYPERTENSION MANAGEMENT SOFTWARE — POWERFUL SOFTWARE TO MAKE DATA MANAGEMENT EASY

The Hypertension Management software suite manages data from the ABPM 7100. Retrieve and analyze information quickly, so you can take your time back and focus on delivering quality patient care.
